CALL FOR NOMINATIONS
ANNUAL TEST AND EVALUATION PROFESSIONAL AWARDS

An excellent opportunity to showcase your personnel for outstanding accomplishments in Test and Evaluation (T&E)

The International Test and Evaluation Association (ITEA) Board of Directors and Committee Chair, Stephanie Clewer, relies on ITEA members and T&E leaders to identify and submit nominations of individuals and teams worthy of recognition by the 2020 ITEA T&E Professional Awards Program. This recognition is a testament of their outstanding accomplishments in, or contributions to, T&E.

The 2020 competitive categories:

- **Allen R. Matthews Award** was established in honor of ITEA's founder and is presented to an individual for a lasting, significant contribution to the field of T&E—such as the cumulative effect of a distinguished career. It is the highest award bestowed by ITEA. The recipient must be a member of ITEA.

- **Special Achievement Award*** recognizes a recent outstanding achievement in T&E engineering, technology, or management—such as the solution of a major problem or a notable project success for which there is evidence that tangible benefits have accrued.

- **Technical Achievement Award*** recognizes an individual or team for outstanding use of instrumentation, information technology, modeling and simulation, time-space-positioning information, electro-optics technology, or other T&E technologies to cause a program to be better, faster, and less expensive.

- **Cross Award** was established in honor of the late Major General Richard G. Cross, Jr., USAF (Ret), one of the most highly respected individuals in the field of T&E in the 20th century. ITEA presents this award to recognize outstanding achievements in the development or administration of T&E education.

CONNECT with ITEA to LEARN, SHARE, and ADVANCE!

- **Publication Award*** recognizes outstanding contributions to T&E literature. ITEA presents this award to honor individuals whose published books or technical papers have improved and increased the general body of knowledge relevant to better understanding and development of T&E technology.

- **Junior Achievement Award** recognizes a young professional who, during his/her first 5 years of practicing in the T&E field, has accomplished a significant achievement(s) which enhances and strengthens the T&E profession.

* ***Period of performance for the Special Achievement, Technical Achievement, and Publication Awards is from July 1, 2019 to June 30, 2020.***

The nomination forms, the eligibility and evaluation criteria, and submission instructions are located under the ADVANCE tab on the ITEA website or go here. N**ominations are due by June 30, 2020,** and the award recipient, along with the nominator, will be informed by e-mail in August.

The recipients will be honored at the Annual Professional T&E Award Ceremony and Luncheon, which will be held during the 37th International Test & Evaluation Symposium, which will be held September 15-18, 2020, at the Wyndham Orlando Resort International Drive, 8001 International Drive, Orlando, Florida.
