Workshop Focus

The focus of the 2018 ITEA Test and Training Instrumentation Workshop is “Supporting the Warfighter from Test to Training.” As our weapon systems and missions become more advanced, the need for instrumentation begins at the developmental phase of testing and continues through training resulting in the use of more complex support systems and methodologies.

This year’s goal is to identify and address those instrumentation and data collection issues and challenges faced by the test and training communities.

Please join us at the 2018 ITEA Test and Training Instrumentation Workshop to share your experiences, lessons learned and solutions to the problems we face in today’s test and training environments.

Las Vegas is the ideal meeting location for representatives from government, industry and academia to present formal papers and exhibit goods and services that can assist test and training professionals. Home to US Air Force Fighter Weapon’s School and the Nevada Test and Training Range (NTTR), Las Vegas is centrally located between the Edwards AFB, USN Combined Tactical Training Range, National Training Center at Ft Irwin, Yuma Proving Grounds, Utah Test and Training Range/ Dugway Proving Grounds, USN NAWCWD, WSMR, the USMC Air Ground Combat Center, NASA Dryden, DOE / NNSA, and the Mojave Flight Test Center making this the perfect location for the Services and Industry to address current and future test and training issues.

Hotel Information

The Tuscany Suites
255 E. Flamingo Road, Las Vegas, NV 89169
702-893-8933 · www.tuscanylv.com · 877-887-2261

ITEA is pleased to offer very special below government per diem rates of $69 per night for Sunday-Thursday, and $115 per night for Friday and Saturday. Please note this property is the host hotel and when making your reservation you must indicate you are with the ITEA workshop. Book online at: https://www2.tuscanylasvegas.com/smsworld/wc.dll?smsWorld~AvailBox~&RGP=1410RS, or call 1-877-887-2261 - Group code 1410RS. Room Block ends April 15, 2018.

Also, the hotel will require a deposit of a one night stay, including tax to hold your reservation. This is customary in Las Vegas. Deadline for this rate is April 15, 2018. Tuscany offers attractive oversized guest ‘Suites’ and each suite is situated in a lovely European setting that offers a great sense of re-laxation and privacy. Call 877-887-2261 and ask for the ITEA Workshop group rates.

REGISTRATION
James Gaidry, CAE,
ITEA Executive Director
703-631-6220
jgaidry@itea.org
To be considered, please submit your abstract by January 31, 2018 to Lena Moran at 951-219-4817, or Lmoran@traxintl.com. The subject line should read IWS Abstract: Title. Please check www.itea.org for more details on the program – tutorials being offered – and much more!

Call for Tutorials
Tutorials that address the theme of the symposium are being requested. Tutorials must be strictly non-marketing in scope, unclassified, and public releasable. To be considered, please submit your abstract by January 31, 2018 to Darryl Johnson, TIW@itea.org. The subject line should read IWS Tutorial: Title. If you have any questions or issues submitting your abstract, please contact him at 702-492-2111.

Guidelines for Presentations at ITEA Events
Presentations at ITEA events should:

- Contribute technically sound knowledge in a particular area of test and evaluation;
- Present new knowledge or experience that has not been published previously; and,
- Not be commercial, marketing, or “informercial” in nature. The presentation’s introductory slide is the only slide that may contain the presenter’s company name and/or logo. Presentations that promote specific companies, organizations, products, or services are reserved for the Exhibit Hall or Vendor Track Sessions, and strictly prohibited in Pre-Workshop sessions (including tutorials, demonstrations, and other presentations), and the Workshop Plenary and Technical Track sessions.

Tutorials are typically scheduled for either a half-day or full day, should include comprehensive presentations on well-established topics, and may include hands-on exercises using various software and/or hardware tools. Technical Track Session presentations are shorter than tutorials and usually last 30 minutes. While tutorials go into considerable depth, Technical Track Session presentations give quick holistic overviews of interesting emerging topics with a concentration on fundamentals and projection about the future of these topics.

Poster Presentations, usually displayed in the Exhibit Hall, are designed to present works-in-progress, new ideas, and emerging fields and research topics in test and evaluation. Poster presenters are expected to bring their printed poster and handouts, and to be present during scheduled times for the Poster Presentation session(s). Attendees will browse the posters and directly interact with the presenters. Thus, the poster session is intended to be an informal, conversational forum for new ideas.

Registration Fees
Registration fees will be posted on www.itea.org on or about Feb. 15, 2018.

Exhibits
Exhibit space is available for the public and private sectors to display products and services related to test and evaluation. For more information, contact Ms. Lena Moran, (951) 219-4817 or Lmoran@traxintl.com.
