International Test and Evaluation Association (ITEA)

Central Florida Chapter
Orlando, Florida

January 22, 2018

To Whom It May Concern:

We request your assistance in obtaining applications from High School Seniors in the greater Orlando area for an annual scholarship to be awarded by the Central Florida Chapter of the International Test and Evaluation Association in Orlando. For the scholarship award(s) in 2018, we will limit consideration of applications to students from High Schools in Orange, Seminole, Lake, and Osceola Counties.

The best seniors with an interest in and a scholastic background in the physical sciences, mathematics, computer science, or engineering should be encouraged to submit an application for this scholarship. Test and evaluation professionals use their science and engineering backgrounds to make sure the systems we buy and the systems that protect us actually work as intended and are safe to use. They push systems to the intended limits and beyond.

For this 2018 academic award, we plan to offer at least one \$500 scholarship. Please see the attached scholarship announcement for the criteria that will be used to evaluate the applications.

The completed applications, along with a sealed high school transcript for the applicant, must be received by March 12, 2018 to provide sufficient time to evaluate the applications and transcripts and award the scholarship before graduation.

If you have any questions about this application process, please contact me at (407) 963-2413 or email me at steve.gordon@gtri.gatech.edu.

Thank you for your assistance in helping recognize outstanding students.
