ITEA Membership Application

Connect with ITEA to LEARN, SHARE and ADVANCE!

For over thirty years the International Test and Evaluation Association (ITEA), a not-for-profit education organization, continues to advance the exchange of technical, programmatic, and acquisition information among the test and evaluation community. ITEA members come together to learn and share with others from industry, government, and academia, who are involved with the development and application of the policies and techniques used to assess effectiveness, reliability, interoperability, and safety of existing, legacy, and future technology-based weapon and non-weapon systems and products throughout their life cycle.

ITEA members embody a broad and diverse set of knowledge, skills, and abilities that span the full spectrum of the test and evaluation profession. All of which is shared with others through The ITEA Journal—the industry’s premier technical publication for the professional tester—and at ITEA’s Annual Symposium, regional workshops, education courses, and local Chapter events. Join the thousands of ITEA members—your peers in the industry—in contributing to The ITEA Journal and participating at ITEA events so that you also can benefit from the opportunities to learn from others, share your knowledge, and help advance the T&E industry.

Our Vision

To be the premier global association for test and evaluation professionals, organizations, and related communities.

Our Mission

To advance test and evaluation globally by providing professional development resources, best practices, networking, and learning opportunities for the test and evaluation community.
