

2nd Annual Multi-Domain Operations Workshop

Optimizing the Test & Evaluation Process for Multi-Domain Operations

July 19-21 | 2022
Radisson Hotel | El Paso, TX

Why attend this workshop:

- Multi-domain operations will become a key element in achieving an integrated air, land, sea and space capability to counter current global threats.
- Understanding MDO concepts and their application to adapting to multi-service, multi-national, multi-platform players will facilitate the creation of a flexible infrastructure capable of conducting more operationally realistic test and training.
- It is important to understand the developing T&E Tools to improve test planning and execution and prepare us to meet these associated challenges.

Who should attend:

- T/E military, civilian and private industry professionals involved in test planning, test execution and modernization of test support capabilities
- DoD and Service leaders driving policy to assure optimum acquisition of DoD capabilities and weapon system modernization

Technical Track Sessions

- TRMC CTEIP TE/ST Enablers for MDO
- Supporting MDO with Distributed Test
- Cyberspace Test Technology
- T&E Methodologies and Approaches to Advance MDO
- Multi-Domain Initiative
- Workforce Development
- WSMR Supporting MDO
- Cyber — Army Combat Capabilities Command
